

ESTIMATING SOFTWARE FOR THE PLASTERBOARD INDUSTRY

SAVE UP TO
70% OF
YOUR
ESTIMATING
TIME

THE LATEST IN MEASURING TOOLS – fast, accurate, automated

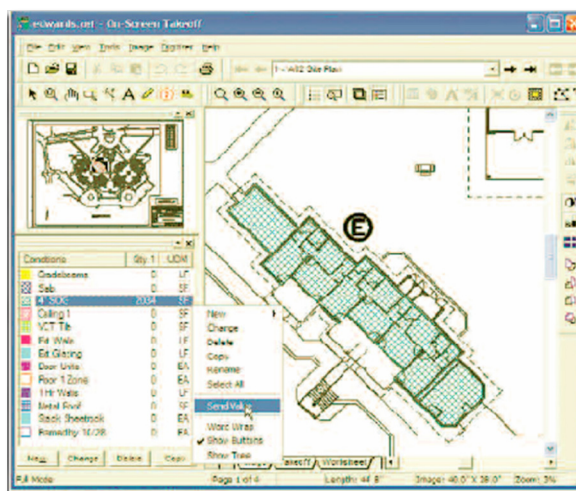

Digitiser – A computerised drawing board. Place your plan on it, trace the lengths and automatically send measurements to the software. Eliminate tracing drawings by hand.

Fast and accurate estimates.

Available in two sizes: A3 (18" x 12") and A1 (30" x 36")

ON-SCREEN TAKEOFF (OST)

Use your mouse to quantify lengths, areas, volumes and counts and your plans ready for estimating.

COMPLETE SOLUTION

Fully integrated construction solution – job costing, project management and accounting.

Group	Phase	Item	Description	Takeoff Quantity	Labour Count/Rate	Labour Price	Labour Amount	Material Price	Material Amount	Vendor Rate	Total Cost/Rate	Total Amount
12.000	12.000		STEEL	LM	LM				1,270		LM	1,270
14.000	14.000		PLASTERBOARD	MZ	MZ				6,094		MZ	6,094
15.000	15.000		INSULATION	MZ	MZ				300		MZ	300
16.000	16.000		PLASTERBOAR LABOUR	HR	HR		16,467				HR	16,467

FEATURES

- Sort projects by location, type, etc.
- Take-off and prices at the same time
- Calculate labour and all accessories
- Complete bill of materials and order list
- Precise and accurate using Digitiser

TYPICAL APPLICATIONS

- All board types
- 51, 64, 76 and 92mm steel stud ceilings
- Suspended and plasterboard ceilings
- Facade and soffit systems
- Glass and aluminium systems
