

# Service Inventory

Added to the Sage Timberline Office's core Service Management software, Service Inventory makes it easy to maintain an accurate perpetual inventory.

Service Inventory enables you to automatically update inventory at the time of invoicing, track minimum and maximum inventory levels, perform accurate physical counts, look up AKA part numbers, and more.

**Service Inventory** is a part of Sage Timberline Office, fully integrated software created to streamline work and connect the people you depend on to build your business.

## Inventory control

- Automatically update inventory at time of invoicing.
- Track minimum and maximum inventory level.
- Perform accurate physical counts.
- Look up AKA part numbers with a single mouse click.
- Track serialized parts.
- Automatically generate customer equipment information from invoicing.
- Track inventory carried on trucks and create stocking lists for each truck.
- Generate detailed inventory transactions, e.g. produce a re-stocking list of parts used per truck.

**Fill Restocking List - General**

Description: Restock Location  
Date: 1/09/2003

Source:  
 Stocking Location: \*Main Stock  
 Vendor

Destination:  
 Stocking Location: Bruce Hardy's truck  
 Vendor

Transfer entire source location  
 Transfer will apply to outstanding

**Fill Restocking List - Register**

Part Number	Quantity or S/N
12 THHN GN #12 THHN Green Wire	12.00
12/2 MC 12/2 MC Cable	12.00
500 BOX 500 amp electrical box	2.00
